Online Contouring Workshop Series Rectal Cancer

Welcome to our specialized online workshop series !

It gives us immense pleasure to welcome you for the 3rd edition of Rectal cancer contouring workshop. The workshop is focused on Guideline based contouring for rectal cancers. This program is meticulously designed to cater to post graduates and as a refresher for experienced radiation oncologist.

The workshop offers didactic lectures, discussions, individual contouring of targets and OARs related to rectal cancer in Varian-Eclipse platform and one-on-one discussion of individual contours with the experts- all through a comprehensive Online Module!

Join us in this dynamic workshop, where theory meets practice and expertise is honed for the betterment of patient outcomes in rectal cancer management.

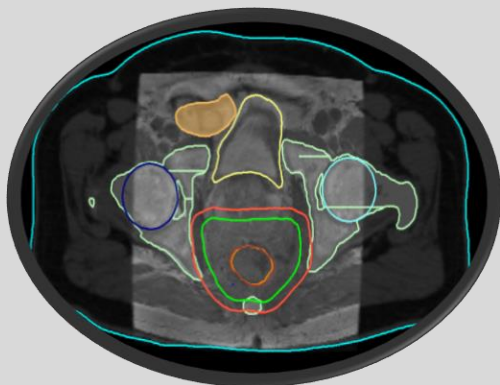

ABOUT GI ONCOLOGY SOCIETY

Gastrointestinal Oncology Society, founded in 2019 by 15 dedicated professionals, aims to enhance the multidisciplinary management of gastrointestinal (GI) cancers in India. The Society is committed to advancing research and training, as well as bridging the gap between knowledge and practice in the treatment of GI tumors. Since its inception, the Society has experienced significant growth, boasting over 175 members. By fostering collaboration among healthcare providers, researchers, and educators, the Gastrointestinal Oncology Society strives to improve patient outcomes and support ongoing advancements in GI cancer care.

The first annual meeting of GIOS will be held at Chandigarh from 8-10th Nov 2024 (www.gios2024.com) .

Online Contouring Workshop Series Rectal Cancer
